

REVENUE CYCLE MANAGEMENT

“Knowledge makes all the difference”

We Strive to not only solve your current issues in managing your business, but work towards providing solutions for future challenges

- Recover Lost Income
- Streamline Processes
- Improve Margins

What RCM Gateway Can do

With multiple health plans, intricate reimbursement methodologies, complex regulatory issues, increased patient responsibility payments, and growth of the uninsured consumer, many health care organizations are losing millions of dollars in net revenue. Improving financial performance requires specific focus and knowledge to fix the underperforming revenue cycle processes. RCM Gateway Healthcare Business Solutions recognizes these challenges and can help you drive an increase in profitability and top line with its innovative services, processes and applications while complying with ever-changing government regulations.

👍 Who We Are

RCM gateway is a Company derived from the internal desire to Simplifying Solutions for Healthcare Professional as well as Hospitals and Healthcare service providers. RCM gateway is a fast growing Revenue Cycle Management and Master Data Management Company delivering integrated Data solutions across the globe.

VISION

To create a World class MASTERPIECE in the field of Healthcare by providing profitable growth to our Clients as well as our team members through innovation, commitment, quality and superior customer services.

MISSION

RCM gateway mission is to provide the BEST services to our customers at competitively cheaper rates. Our motto is "To provide Best in Less"

BUSINESS MODEL

RCM gateway structure is based through strong customers' and our team members' satisfaction by consistently producing superior operating results.

BUSINESS MODEL

- To Excel Where Not Expected, then to Exceed Every Expectations.
- Is to provide medical billing and claim processing services at affordable cost.

CORE VALUES

RESPONSE

- To be responsive to client needs and wants at levels higher than the norms – so that an optimally customized solution can be created for each respective client.

INNOVATION

- To foster an innovative, pro-active approach to every client. Requisition - instead of fitting the client's needs into a standard solution closest to it, to deliver a solution that is modified and optimized for that particular client.

ETHICS

- To practice exceptional ethics in all thoughts and actions. To do it so tangibly and perceptibly, that the client can experience it each time.
